

# DISCOVER MORE REASONS TO USE RELYMD

It may still be flu season, but there are plenty of reasons to use telemedicine - we're a great way to avoid busy doctor offices & urgent care locations.

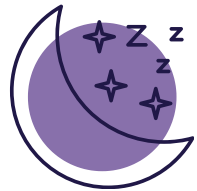

## 01

If you're considering the ER or urgent care for a non-emergency medical issue and want to avoid these high-cost settings.

## 02

When you need care after business hours, at night, or over the weekends and holidays when your primary care office and local urgent care facilities are closed. Don't forget, we're available 24/7 and can be used at any hour!

## 03

You need a quick medication (non-scheduled prescriptions) refill, and your primary care doctor isn't available.

## 04

When leaving home to see a physician just isn't possible. We're great for those without reliable transportation or those who want to avoid public transportation.

## 05

When you and your family are traveling (within NC, GA, VA & FL) and are in need of medical care while away from your primary care physician and are unfamiliar with local healthcare facilities.
