

Getting started with RelyMD is easy

For active MYidealDOCTOR members, we've made it simple to transfer your account to the RelyMD mobile and web apps. Remember, if you ever need assistance, please call (855) 879-4332.

Follow these **simple instructions**:

Step 1

Whether you visit myidealdocor.com, relymd.com or use the MiD mobile app, we will get you to the right place! **We highly encourage you to start using relymd.com when starting a visit from your computer. However, your existing mobile app will automatically update and 855-879-4332 is still the number to call!**

Choose "Log In". Once you're at the log in screen, **you can use your existing username and password**. All existing data is being securely transferred to the new app.

Step 2

Step 3

While your existing data is being transferred, **we highly recommend that you review your demographics and medical history (especially allergies and medication)** to ensure everything is correct before starting your visit.

All communication will now come from RelyMD. Please remember to complete your post-consult survey so we can ensure we're providing the best care possible. **We thank you for being a valued patient!**

Step 4

That's it! You're ready to see a doctor!

If you need assistance, please call 855-879-4332.
